	The plant section. 1946, prod a 24 hour bicarbonat Sodium sul During Wor the chief material a of approxi Sulfuric A . We sometim	was located on the ou The main item of production averaged unly work-day, would be able by processing sodiu fate was extracted fride was extracted fride US Army consumers were Kunmin at the plant in their mately 40 workers and acid Production	tskirts of Kunmuction was sodi one ton/month. out three tons/ m suifate accor om a mine about was the princi g soap manufact own trucks. Pl two or three p	sing in the Ma-Kai-Tz um bicarbonate. In Maximum output, ass month. We produced ding to the Le Blanc 100 miles from Kunm pal consumer. In 19 urers who picked up ant personnel consis rofessional engineer	1945- uming scdium process. ing. 46, the tad s.	
	The plant section. 1946, prod a 24 hour bicarbonat Sodium sul During Wor the chief material a of approxi Sulfuric A . We sometim process to	was located on the outline main item of production averaged only work-day, would be able by processing sodiustate was extracted frild War II the US Army consumers were Kunming to the plant in their mately 40 workers and acid Production	tskirts of Kunmuction was sodi one ton/month. out three tons/ m suifate accor om a mine about was the princi g soap manufact own trucks. Pl two or three p	ding in the Ma-Kai-Tz um bicarbonate. In Maximum output, ass month. Ws preduced ding to the Le Blanc 100 miles from Kunm pal consumer. In 19 urers who picked up ant personnel consis rofessional engineer uric acid by the Cha- uses such as laborat	1945- uming scdium process. ing. 46, the tad s.	
	The plant section. 1946, prod a 24 hour bicarbonat Sodium sul During Wor the chief material a of approxi Sulfuric A . We sometim process to	was located on the outline main item of production averaged unly work-day, would be at the by processing sodiustate was extracted from the US Army consumers were Kunming the plant in their mately 40 workers and acid Production may be used in the plant for the plant was capable.	tskirts of Kunmuction was sodi one ton/month. out three tons/ m suifate accor om a mine about was the princi g soap manufact own trucks. Pl two or three p	ding in the Ma-Kai-Tz um bicarbonate. In Maximum output, ass month. Ws preduced ding to the Le Blanc 100 miles from Kunm pal consumer. In 19 urers who picked up ant personnel consis rofessional engineer uric acid by the Cha- uses such as laborat	1945- uming scdium process. ing. 46, the tad s.	
2	The plant section. 1946, prod a 24 hour bicarbonat Sodium sul During Wor the chief material a of approxi Sulfuric A We sometim process to testing. Da Chen En	was located on the outline main item of production averaged only work-day, would be at the by processing sodius fate was extracted from the US Army consumers were Kunming to the plant in their mately 40 workers and acid Production was produced small qualities in the plant for The plant was capable aterprises	tskirts of Kunmuction was sodi one ton/month. out three tons/ m sulfate accor om a mine about was the princi g soap manufact own trucks. Pl two or three p ntities of sulf miscellaneous of producing a	sing in the Ma-Kai-Tz um bicarbonate. In Maximum output, ass month. We produced ding to the Le Blanc 100 miles from Kunm pal consumer. In 19 urers who picked up ant personnel consis rofessional engineer uric acid by the Chauses such as laborat pproximately one ton	1945- uming scdium process. ing. 46, the tad s. mber cry /day.	
2	The plant section. 1946, prod a 24 hour bicarbonat Sodium sul During Wor the chief material a of approxi Sulfuric A. We sometim process to testing. Da Chen En headquarte	was located on the outline main item of production averaged unly work-day, would be at the by processing sodiustate was extracted from the US Army consumers were Kunming the plant in their mately 40 workers and acid Production may be used in the plant for the plant was capable.	tskirts of Kunmuction was sodi one ton/month. out three tons/ m suifate accor om a mine about was the princi g soap manufact own trucks. Pl two or three p ntities of sulf miscellaneous of producing a owned by the D an operated sev	sing in the Ma-Kai-Tz um bicarbonate. In Maximum output, ass month. We produced ding to the Le Blanc 100 miles from Kunm pal consumer. In 19 urers who picked up ant personnel consis rofessional engineer uric acid by the Cha uses such as laborat pproximately one ton a Chen Enterprises w eral other plasts in	1945- uming scdium process. ing. 46, the tad s. mber cry /day.	
2	The plant section. 1946, prod a 24 hour bicarbonat Sodium sul During Wor the chief material a of approxi Sulfuric A. We sometim process to testing. Da Chen En Kunmin headquarte Kunming ar Da Chen. There were Kunming, 2	was located on the outline main item of production averaged only work-day, would be able by processing sodiustate was extracted frield war II the US Army consumers were Kunming the plant in their mately 40 workers and used Production has produced small qualitation in the plant for The plant was capable attemprises In Kunming. De Ch	tskirts of Kunmuction was sodi one ton/month. out three tons/ m sulfate accor on a mine about was the princi g soap manufact own trucks. Pl two or three p ntities of sulf miscellaneous of producing a owned by the D on operated sev plant. I have rial plants in ming Chemical w	sing in the Ma-Kai-Tz um bicarbonate. In Maximum output, ass month. We produced ding to the Le Blanc 100 miles from Kunm pal consumer. In 19 urers who picked up ant personnel consis rofessional engineer uric acid by the Cha uses such as laborat pproximately one ton a Chen Enterprises w eral other plants in no other information the Ma-Kai-Tze secti lorks. I recall an e	1945- uming scdium process. ing. 46, the tad s. mber ery /day. ith the on on of lectrical	
2	The plant section. 1946, prod a 24 hour bicarbonat Sodium sul During Wor the chief material a of approxi Sulfuric A. We sometim process to testing. Da Chen En the Kunmin headquarte Kunming ar Da Chen. There were Kunming, 1 power plant	was located on the out The main item of production averaged only work-day, would be able by processing sodiutiate was extracted frold War II the US Army consumers were Kunming the plant in their mately 40 workers and used Production has produced small qualities in the plant was capable atterprises and Chemical Works were in Kunming. Da Chemical works were in Kunming. Da Chemical other industing a flour in addition to the Kuntand a manufacturer	tskirts of Kunmuction was sodi one ton/month. out three tons/ m suifate accor om a mine about was the princi g soap manufact own trucks. Pl two or three p ntities of sulf miscellaneous of producing a owned by the D on operated sev plant. I have rial plants in ming Chemical w of electric par end -	sing in the Ma-Kai-Tz um bicarbonate. In Maximum output, ass month. We produced ding to the Le Blanc 100 miles from Kunm pal consumer. In 19 urers who picked up ant personnel consis rofessional engineer uric acid by the Cha uses such as laborat pproximately one ton a Chen Enterprises w eral other plants in no other information the Ma-Kai-Tze secti lorks. I recall an e	1945- uming scdium process. ing. 46, the tad s. mber ery /day. ith the on on of lectrical	2
2	The plant section. 1946, prod a 24 hour bicarbonat Sodium sul During Wor the chief material a of approxi Sulfuric A. We sometim process to testing. Da Chen En the Kunmin headquarte Kunming ar Da Chen. There were Kunming, 1 power plant	Was located on the outer main item of production averaged only work-day, would be able by processing sodiustate was extracted frield war II the US Army consumers were Kunming the plant in their mately 40 workers and acid Production has produced small quality in the plant was capable atterprises In Chemical Works were res in Kunming. Da Chemical works were resulted in addition to the Kunming and the several other industrial and a manufacturer.	tskirts of Kunmuction was sodi one ton/month. out three tons/ m sulfate accor on a mine about was the princi g soap manufact own trucks. Pl two or three p ntities of sulf miscellaneous of producing a owned by the D an operated sev plant. I have rial plants in ming Chemical w of electric par end -	sing in the Ma-Kai-Tz um bicarbonate. In Maximum output, ass month. We produced ding to the Le Blanc 100 miles from Kunm pal consumer. In 19 urers who picked up ant personnel consis rofessional engineer uric acid by the Cha uses such as laborat pproximately one ton a Chen Enterprises w eral other plants in no other information the Ma-Kai-Tze secti lorks. I recall an e	1945- uming scdium process. ing. 46, the tad s. mber ery /day. ith the on on of lectrical
